Every week we'll be encouraging you to notice features of the landscape in an artwork using Exhibit, a tool which provides an engaging and interactive experience similar to what you would have with the original piece.

If you have not already, look at 'Dooicot at Prestonkirk, East Lothian', by William Frazer Miller, featured on Exhibit before going on your walk. You can find this here: [Exhibit | Dooicot at Prestonkirk, East Lothian](#)

We have also created a playlist you can listen to on your walk.

We'll suggest songs to listen to whilst looking out for certain features.

You can find our playlist on Spotify here: [Spotify – Get Outdoors 5](#)

Why not listen to 'Walking On Sunshine' from the playlist to start off your walk?

The painting depicts the doocot at Prestonkirk, East Lothian. The doocot, is shown within a rural landscape, with sheep grazing in the field.

As you go on your walk today, have a look out for all the different animals you can spot. Are there birds flying, dogs being walked, insects on the ground?

How are they interacting with the environment around them? Are they nesting in their home, listening to what is going on around them, trying to find food?

Why not listen to 'Animal' from the playlist whilst looking at these features?

What is the weather like around you and how is it affecting your walk today? Did it help your decision on what path you should take, or what time you went out?

Is it affecting the colours that you can see around you?

Think about your different senses on your walk.

Make a note of all the different things you can hear and smell at different stages of your wander.

Why not listen to 'Weather With You' from the playlist whilst looking at these features?

Have a look out at the buildings you come across on your walk. What do you think is going on inside?

Is it offices and the people inside are busy working away? Or perhaps a café, where you can imagine people socialising with friends.

When you go your walk, take a moment to just listen to what is going on around you. Maybe you can hear people chatting, children playing, or the breeze through the trees.

Why not listen to 'Walk on the Wild Side' from the playlist whilst looking at these features?

At one point in your walk stop and have a look at your horizon. What can you see? Is what you can see different from what is around you just now?

Enjoy the rest of your walk and have a think of what songs you would use if you were to put a playlist together that would describe your journey outside today.
